## Reflections

In my life, I have made many foolish mistakes. Mistakes that deserved heavy consequences. I was divorced, almost bankrupt and fell into chronic depression for almost 7 years. But God turned everything around and provided a way out for me.

He gave me life and life abundantly.

When I reflect on God's mercy and grace upon my life for the past 30 years, my gratitude towards Him are beyond words. This is one of the reasons for 'Reflections' to thank Him for all He has done in my life.

Besides this, the songs in the album are also written as a devotional. I hope you will not only take the time to listen to them, but also to reflect on your own life. How far you have come and how God has played a part in all of it.

My prayer is that no matter what situation you are in, you will allow the Holy Spirit to stir you to engage with God. I believe when you do that, you will find the answers in life you are looking for.

Kelvin

I love stories. Especially stories of people connecting to God, and how God journeys with them through their ups and downs in life.

This album is special not only because of the stories told in song, but it also tells of a God who saves us and Peace restore our lives.

Out of the different circumstances, most of them trying God out a new song, a new spirit and a new heart in Kelvin. In the same way, I hope that God will do likewise for you.

As you listen to them, I pray that you will be refreshed and fall in love with Him all over again.
